ClassVision AI — Classroom Activity Analytics

Session ID: **test_sess_multirow_accuracy** | Course: **CV101** | Date: **2026-10-31** | Data Source: **REAL_PROCESSING**

Provenance: 50% Kaggle / 50% Synthetic / 0% Real Classroom | Generated: 2026-10-31 21:06

1. Observable Activity Summary

Metric	Observed Value	Interpretation Notes
Unique Anonymous Tracks	1	Tracks observed in video frames; not student count
Total Hand-Raising Events	1	Single continuous episodes aggregated via Phase 2.2 FSM
Left-Hand Events	1 (100.0%)	Anatomically validated shoulder-wrist geometry
Right-Hand Events	0 (0.0%)	Anatomically validated shoulder-wrist geometry
Both-Hands Events	0 (0.0%)	Concurrent bilateral elevation episodes
Average Gesture Duration	2.8 s	Mean duration of sustained hand elevation
Maximum Gesture Duration	2.8 s	Longest continuous hand raise recorded
Peak Participation Window	00:00 - 01:00	Interval with highest event density

2. Participation Frequency Over Time (Sample Intervals)

Interval Label	Total Events	Left Hand	Right Hand	Both Hands	Active Tracks
00:00 - 01:00	1	1	0	0	1

3. Anonymous Track Participation Distribution

Track ID	Events	Total Duration	Avg Duration	Left Hand	Right Hand	Both Hands
track_002	1	2.8 s	2.8 s	1	0	0

4. Academic Ethics & Interpretation Boundaries

Objective Physical Reporting: This report reflects observable physical movements only. The system does not measure or infer attention, concentration, emotional affect, cognitive engagement, or student intelligence. Track IDs are anonymous and session-scoped. Facial images and biometric identifications are strictly prohibited.
