ClassVision AI — Classroom Intelligence Report

Course: CV101 | Instructor: Academic Instructor | Generated: 2026-10-31 22:00

Provenance Label: REAL_PROCESSING | Privacy: Anonymous IDs only

1. Session Metrics Overview

Metric	Value
Total Hand-Raise Events	1
Left Hand Raises	1
Right Hand Raises	0
Both Hands Raises	0
Average Duration	2.5s
Camera Mount	Rear-Corner Elevated
Biometric Profiling	DISABLED
Raw Frame Storage	0 Bytes

2. Lecture Audio Transcription Summary (Faster-Whisper)

Extracted Segment: "I've got to go to him."

3. Whiteboard & Slide Content Extraction (EasyOCR)

Detected Board Concepts: Convolutional Neural Netwvorks Out_dim ((W- K + 2Pi /S1 + 1

4. Academic Ethics & Privacy Compliance Statement

ClassVision AI strictly monitors observable physical actions (hand-raising, postures, and gestures) using transient in-memory inference. Zero raw video frames or student facial biometric embeddings are persisted. The system strictly prohibits inferring internal cognitive states such as emotion, attention, or student intelligence.
